

An insight into the science system by the president of the German Research Foundation (DFG): the presentation "Eindringlichkeit und Distanz. Anmerkungen zur Bildung des wissenschaftlichen Nachwuchses" by Peter Strohschneider on 4 December 18:15h in the auditorium of the main university building (UHG) promises to provide this insight.

Strohschneider analyses the changing world of science and the implications for young researchers. He explains the necessity to occasionally look at one's own research from a distance despite all the passion for the own scientific topics. Graduate Academy warmly invites you for the presentation with a following reception.

Date: Thursday, 4 December 2014

Time: 18:15-19:45h, following reception

Place: Auditorium (Aula) of the main university building

Meldung vom: 02.12.2014 10:40
