

Family & Diversity

Friedrich Schiller University is committed to the concept of <u>gender mainstreaming</u> and pursuing the goal of <u>equal opportunities</u> and equality for women and men as a strategic management responsibility and university-wide task. A substantial part of this is the support of appropriate gender- and family-friendly working conditions.

Therefore, the GA closely cooperates with the <u>FSU family office</u> and the <u>Studentenwerk Thüringen</u>. For the implementation of the DFG's "research oriented standards on gender equality" FSU holds the <u>highest valuation level in 2013</u> (level 4). Since 2008, the FSU has been a member of the <u>best practice club "Familie in der Hochschule"</u> of the Robert Bosch Foundation. Further, the FSU has been repeatedly awarded with the <u>Total E-Quality certificate</u> (2008, 2011) and is a founding member of the <u>Jenaer Bündnis für Familie</u> (Jena alliance for family).

On the following pages, you can find information on the topics of equality and being a postdoc with children.
