

Introduction to the GxPs with special focus on GMP and GLP

Trainer	Prof. Dr. Michael Hildebrand
Language	English
Date	29 January 2013, 10.00 – 17.30 h 30 January 2013, 9.00 – 15.00 h
Location	Auditorium, »Zur Rosen«, Johannisstraße 13
Target group	Natural Scientists
ECTS	1.0

The workshop gives an introduction to the GxPs - the Good Practice quality guidelines and regulations which are used in many fields, especially in pharmaceutical and life science industries. The focus will be on Good Manufacturing Practice (GMP) and Good Laboratory Practice (GLP).

- Outline of the workshop:
- Overview of drug development and manufacturing with focus on GxP
- Good Manufacturing Practice (GMP): theory and group work on a practical GMP example
- Good Laboratory Practice (GLP)
- Overview: The other GxPs
