Scientific Presentations

07 February 2014, 9.00–17.00 h

Auditorium, „Zur Rosen“, Johannisstraße 13

In this one-day course, you will learn how to give an effective and engaging scientific presentation.

We will discuss the following aspects:

- typical mistakes that people make when giving a presentation
- how to organize and structure your presentation
- timing and delivery
- which information to include in your presentation
- how to make your presentation visually appealing
- appropriate vocabulary and phrases for presentations
- the correct pronunciation of commonly mispronounced words
- how to deal with and answer difficult questions
- how to avoid 'stage fright' and speaking too quickly

Each participant will be given the chance to give a short presentation and to receive constructive feedback.
