

*Prof. Dr. Michael Hildebrand*

**Introduction to the GxPs – with special focus on GMP and GLP**

16 December 2013, 10.00-17.30 h and 17 December 9.00-15.00 h

Auditorium, „Zur Rosen“, Johannisstraße 13

The workshop gives an introduction to the GxPs – the Good Practice quality guidelines and regulations which are used in many fields, especially in pharmaceutical and life science industries. The focus will be on Good Manufacturing Practice (GMP) and Good Laboratory Practice (GLP).

Outline of the workshop:

- Overview of drug development and manufacturing with focus on GxP
- Good Manufacturing Practice (GMP): theory and group work on a practical GMP example
- Good Laboratory Practice (GLP)
- Overview: The other GxPs
